

Airport

SUITCASE SHRINK WRAPPER with STRETCH FILM.
Simple airport machine.

OPERATION

Suitcases are placed manually on the metallic support with adjustable width. The film is placed in the correct position and the mechanism's turning operation is activated. Change the position of the suitcase, so that the film can wrap it completely; cut the plastic and open holes so that the wheels can turn after the suitcase has been wrapped.

TECHNICAL FEATURES

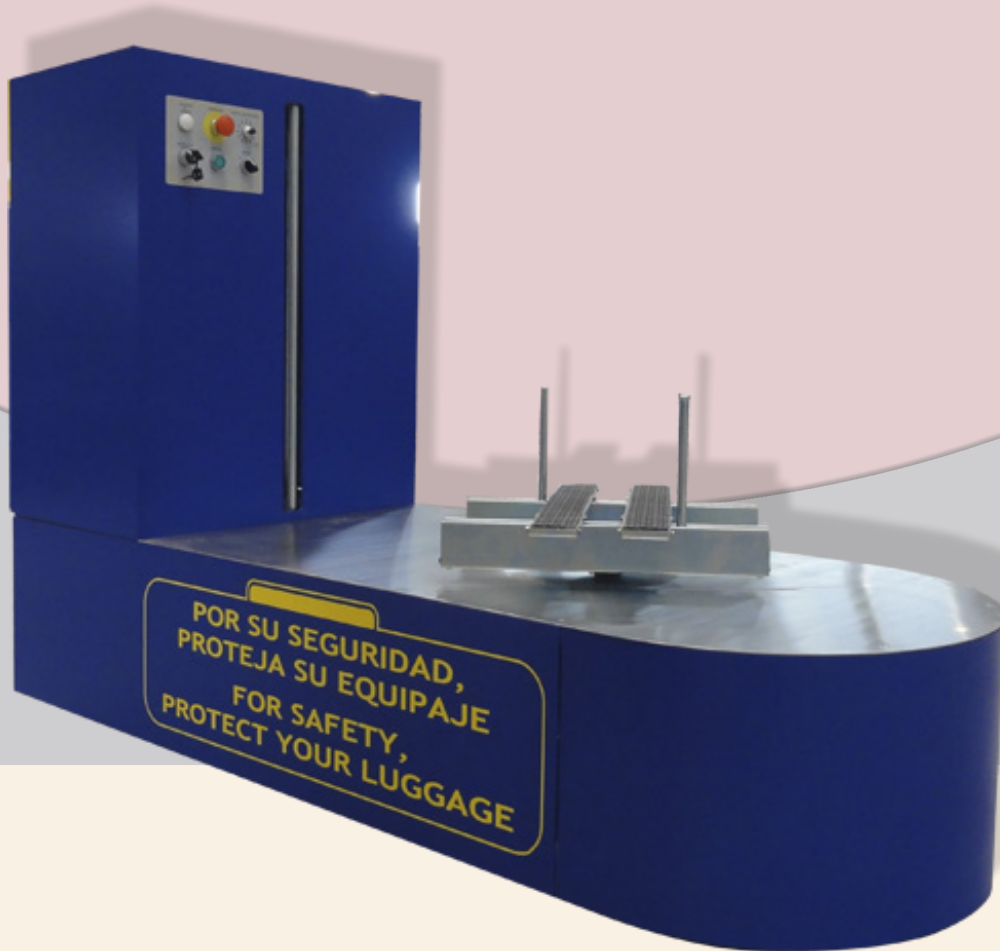

Features wheels to easily move the machine.
Wrapping with low density polyethylene film.
Manual controls.
Top quality materials.

PRODUCTS AND MARKET SECTORS

Suitcases, travel bags, luggage, etc.
