

# Shrink Wrappers-Tunnel

High production rate square-shaped package shrink wrapping machines (100 p/min). Model ZEA-90 PS.

## OPERATION

The square-shaped packages are received on the conveyor product entrance at a 90° angle. Packages move horizontally on their longest side; the conveyor features a rising slope with a pneumatic system on the end that positions packages vertically. The machine features a cylinder assembly that separates the product in the requested formats. A 1 to 2 row positioning system can be installed on the conveyor entrance to increase the production rate.

## TECHNICAL FEATURES

Shrink wraps with polyethylene film.

Electronic temperature control in the shrink wrap and welding tunnel.

Manual controls and fully automatic operation.

Dropped square-shaped package system for different formats.

Brake, pushing and unloading system used to bundle products.

Positioning system used to transfer the product from 1 to 2 rows.

Top quality materials: OMRON automation system, FESTO pneumatic system, TELEMECANIQUE electrical devices.

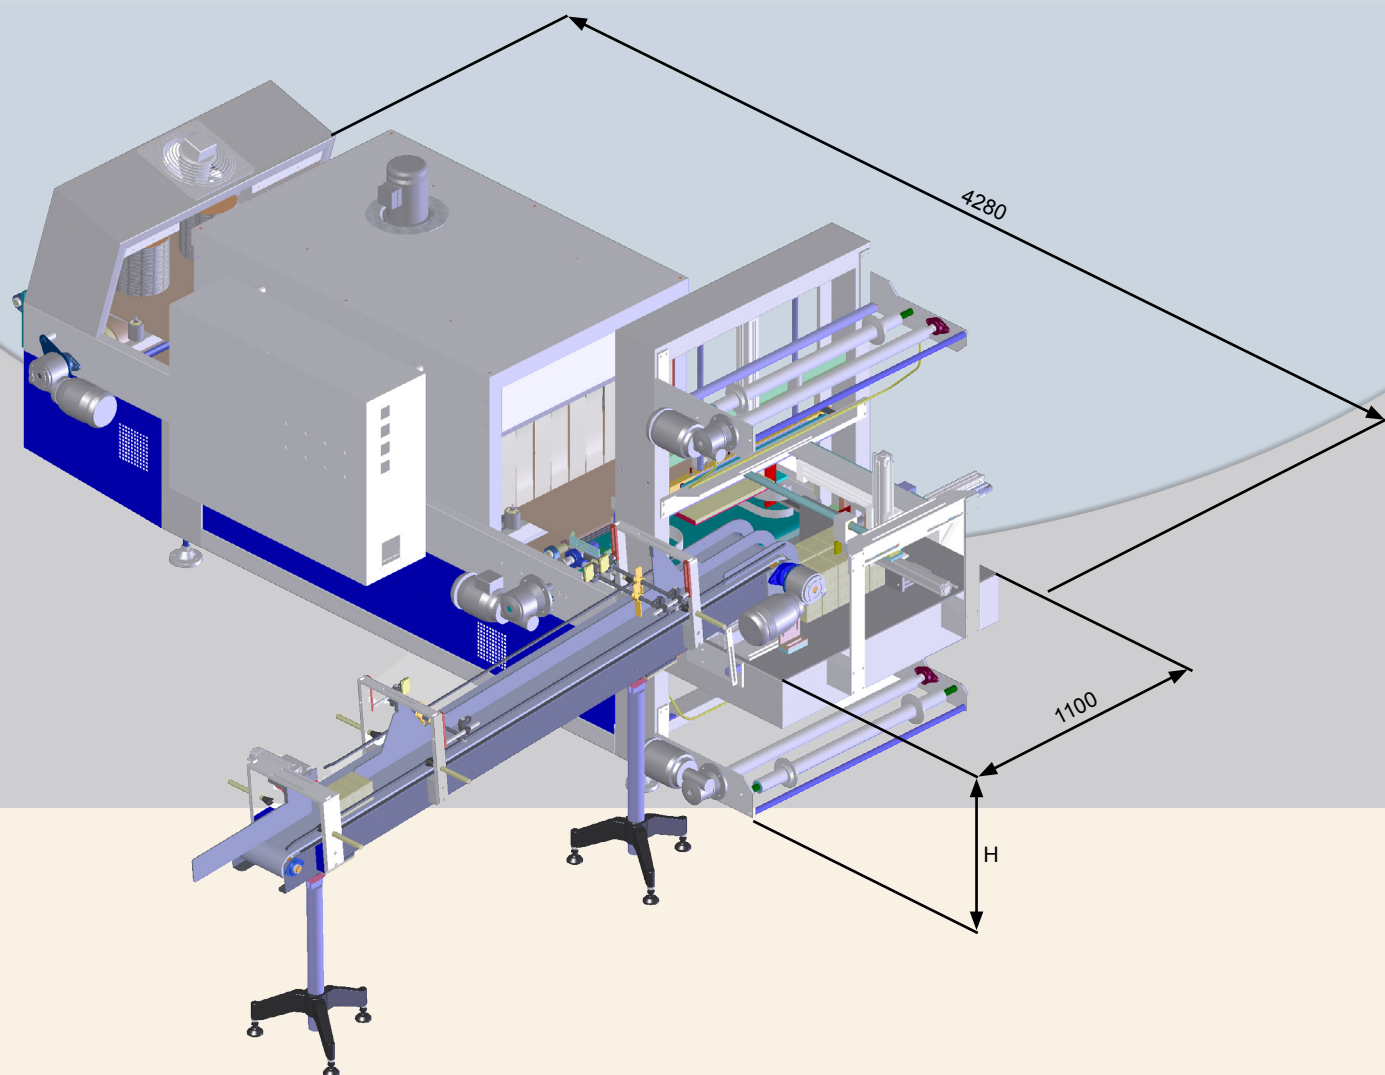

## PRODUCTS AND MARKET SECTORS

Food sector: mainly works with square-shaped packages that contain flour, rice, dry legumes, sugar, salt, semolina, etc.

# Shrink Wrappers-Tunnel

High production rate square-shaped package shrink wrapping machines (100 p/min). Model ZEA-90 PS.

Voltage	220v or 380v
Power	24 Kw
Weight	1200 Kg
Air consumption	100 l/min
Air pressure	6 atm.
Film thickness	50-100 microns
Production	10-12 p/min according to bundle size
